

Borough of Lansdale
Electric Committee Minutes
Meeting of March 6, 2019

Members Present

Bill Henning, Councilman

BJ Breish, Councilman

Andrew Krauss, Electric Superintendent

Members Absent

Rich DiGregorio, Chairman

- Minutes of the February 6, 2019 committee meeting were approved by a vote of 2-0.
- Lansdale Electric Facebook Page - The committee looked at the recently launched Lansdale Electric Facebook page. If you haven't liked or followed the page yet, please do. Lots of great information to check out.
- Solar Project Update - As a committee we reviewed the first set of plans for the proposed solar grant project for the Borough prepared by RVE, the Borough engineer.
- PMEA Board of Directors - Lansdale was nominated to hold a seat on the Pennsylvania board of directors. This is a seven-member board made up of municipal electric communities. Only seven out of the thirty five municipalities were nominated to sit on the board, and we will make sure we represent Lansdale well at the table. The department would like to thank Borough Council for the opportunity to grow and move PMEA forward.
- Street Lamps on Knapp Road - The Borough is currently waiting for a response from Montgomery Township as the new lights would need approval by both the Township and the Chief of Police. We will leave this as an open item on the agenda for further discussion.
- Department Operations- The department has been busy this last month with the following projects:
 - Storm damage repair work
 - Pole relocations for the Liberty Bell Trail
 - Traffic signal coordination for sections of the trail
 - Taking delivery of the new bucket truck and 3500 dump truck
 - Andale/Green new units and street lighting

Meeting adjourned.
